SUMMARY

Full-Stack Developer with 13+ shipped web and mobile projects: admin dashboards, information systems, REST APIs, financial apps, and a school admission system with payment gateway integration. I handle the build myself from architecture and code to deployment and post-release maintenance. Information Technology graduate from Universitas Bina Sarana Informatika and holder of three BNSP certifications (Software Engineering, Program Analyst, Network Administrator Madya). Open to full-time and remote roles.

WORK EXPERIENCE

Freelance Full-Stack Developer

Self-Employed · Jan 2024 – Present

- Built 13+ web and mobile applications for SME and school clients, mostly with Next.js, Laravel, Go, Flutter, and PostgreSQL.
- Designed relational database schemas and JWT-authenticated REST APIs, including multi-tenant apps with per-role access control.
- Handled deployment to Vercel and self-managed servers, then monitored and fixed applications after release.

IT Support & Teaching Assistant (Internship)

SMKS Jakarta 1 Pondok Kopi · Oct 2024 – Dec 2024

- Built the school's integrated admission system (registration, payment gateway, secure online exams) and academic website with PHP CodeIgniter and MySQL; the work was rated 4.48/5.00 "Very Good".
- Maintained the lab network and computer equipment and handled hardware and software troubleshooting.

Operations & Stockist Admin

Agen Milagros Pondok Kelapa · Feb 2021 – Dec 2024

- Prepared daily and monthly sales reports with 100% stock data accuracy.
- Managed about 60 boxes of inventory per month and processed 20+ customer orders per week, including financial reconciliation and cash and bank transfer records.

SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Bootstrap

Backend: PHP, Laravel, CodeIgniter 3, Node.js, Go, Python, REST API, JWT

Mobile: Flutter, Dart, Kotlin

Database: PostgreSQL, MySQL, Supabase, Prisma, Firebase

Tools: Git, GitHub, GitHub Actions, Vercel, Linux

EDUCATION

Universitas Bina Sarana Informatika, Jakarta

Bachelor of Information Technology (Faculty of Engineering and Informatics) · Aug 2021 – Dec 2025

- Thesis: Web-based Integrated School Admission Information System with payment gateway integration; published in a journal and rated 4.48/5.00 "Very Good".

SMKS Jakarta 1 Pondok Kopi, Jakarta

Software Engineering (Rekayasa Perangkat Lunak) · Jul 2018 – Jun 2021

- Graduated as the top student in the program; highest score in the BNSP competency assessment.
